

GROWING UP GENESIS 9

SELLERS RESOURCE AGREEMENT

Growing Up for Genesis 9 Female(s) may be used as a Sellers Resource under the following conditions.

What you MAY do:

You may save as a Character\Shaping preset in conjunction with your morphs where users will require the Growing Up product in order to work, much in the same way characters require Daz Head and Body Morph packages if they are used in the creation of your character.

What you MAY NOT do:

You may not distribute\copy the morphs from this product in their current format or modify them, unless for personal use.

You may not Bake\Merge any morphs from this package for any characters for sale or for freebies.

You may not create freebies distributing the morphs from this product in any form unless it is a character\shaping preset where users will require the Growing Up product in order to work.

This Sellers Resource agreement extends to Genesis 9 only. No character for any other base figure may be created using this product.

You may NOT create your own Merchant Resource using any aspect of this product or modification there-of, which extends to any other Youth adjusting offering package where age alteration is any aspect of the product.

Products\Sellers suspected of violating these rules will be reviewed and monitored and will be delt with accordingly.

Usage Tips

If you dial any of the Youth specific morphs while the Youth Base Morph is at 0 value, you will see no changes to those dials. They are designed only to activate once the Youth Base Morph has a dialed value. If you try to dial up any of them they will have a value based on how much you tried to dial it up, but will only reflect once the Base Youth Morph has been activated.

When using any Neutralize Morphs, they must not exceed the value of the Youth Base Morph in order for them to work correctly. Secondly, some morphs will auto undial to prevent stacking.

For Example - if you have GU Youth Neutralize Head dialed there is no need for the GU Youth Neutralize Nose dial to be active as well.

Blending in Male or Female

Growing Up contains Body and Head Neutralizer Morphs. With these you can reduce the Neutral Growing Up Body and Head appearance as much as you want in order to blend in more of the Feminine or Masculine shapes.

Product Morph/Files Location

Growing Up Morphs - Actor/Full Body/Base/Growing Up
Age and Zero Presets - People/Genesis 9/Shapes/Growing Up
